Akrivit

It all started with a single touch. A touch to people's lives, to their living spaces... Every place we spend time in deserves touches full of life. This is why we breathe life to bathrooms through sinks, shower trays and bathtubs created with a human touch from design to production.

Since 2014, we have been transferring the deep-rooted experience of Çivril Mobilya dating back 1951 to bathrooms. With our sinks, shower trays and bathtubs, designed and manufactured incorporating not only our know-how and experience, but our innovative approach as well, bringing a rising trend to your homes.

We combine modern designing skills with high quality and healthy materials, and we utilize technology as well as precision of craftsmanship in our manufacturing technique. With Akrivit sinks, shower trays and bathtubs, we offer practical and stylish solutions for bathrooms in crowded spaces such as hotels and restaurants as well as private residences.
